Research Interests: My research lies at the intersection of pragmatics and semantics, exploring how context, speaker intentions, and discourse shape linguistic interpretation. I am particularly interested in discourse particle, speech acts, questions and answers, bias inference, and attitude predicates. Using formal analysis and experimental methods, I investigate pragmatic phenomena across languages. I also have an interest in computational linguistics and the implementation of algorithms for modeling natural language.

EMPLOYMENT

2024- Post-doc at Bielefeld University, SFB 1646

EDUCATION

2019-2024 Ph.D. Linguistics, Konstanz University (Germany) Dissertation: *Bias Conditions in Polar Questions and Answers: A study of Bias Effects in Farsi*
2013-2015 MA. Linguistics, Allame University (Tehran, Iran) Thesis: *"var" Prefix in Farsi, a Cognitive Study in Word Formation*
2010-2013 BA. English Translation, Qazvin University (Iran)
2004-2006 Associate Degree, Computer Science, Azad University (Tehran, Iran)

PUBLICATIONS

appear Koev, Todor, Mohammadi, Maryam, *Association with Contrastive Topic: Farsi ke*. In *Proceedings of Semantics and Linguistic Theory (SALT 36)*, To appear.
appear Mohammadi, Maryam, *Beyond Conditionals: The Exceptive Modal mage in Farsi*. In *Proceedings of the 57th Annual Meeting of the North East Linguistic Society (NELS 57)*, To appear.

Presentations

2026 *Beyond Conditionals: The Exceptive Modal mage in Farsi* in NELS 57, City University of New York (poster presentation).

2026 *Automated Consent Form Generation: Using Ontology for Model Configuration* in SEMANTiCS, Ghent, Belgium (poster presentation).

2026 *Association with Contrastive Topic: Farsi ke* in SALT 36, Bueno Aires University, Argentina (poster presentation).

2026 *Do Large Language Models Understand Double Mismatches? Evidence from Farsi* in SilkRoadNLP Workshop, EACL, Rabat, Morocco (poster presentation).

2026 *Mismatch patterns in polite plural: a study on Farsi* in Tracing Mismatches: Deviations from one-to-one patterns Workshop, DGfS 48, Trier University.

2025 *What can we do with what data?* in ReproducibiliTea in the HumaniTeas, Köln University.

2025 *Biased polar questions: A cross-linguistic study*, in Workshop on Creative Discourse beyond Discourse Expectations and Implicit Meaning, Bielefeld University.

2025 *Association with Contrastive Topic: Farsi ke and Topic Shift*, Triple A, Tokyo University.

2025 *Are alternative questions exhaustive or not?* NACIL 4, University of Toronto Mississauga.

2025 *Aren't Conditionals Quantifiers?* ICIL 10, University of Tuscia (Viterbo).

2024 with Katja Politt, *User-oriented research infrastructure assisting linguistic data collection and (re-)use*, SFB-INF Workshop, Köln University (poster presentation).

2024 *Polar Response Particles in Farsi: Lexical Ambiguity*, Linguistics Seminar Series, Lunds University.

2024 *Speaker Attitudes Predict Epistemic Biases in Polar Questions : Evidence from Farsi*, WCCFL 42, Barkley University.

2023 *Polar Particles in Farsi: Sensitivity to the Scoreboard Model of Discourse*, Semantics Workshop at the University of Massachusetts (Amherst).

2023 *Polar Particles in Farsi: Sensitivity to the Scoreboard Model of Discourse*, SuB 28, Bochum, Germany.

2023 *'mage' as a bias particle in interrogatives*, IWCS, InqBnB workshop, Nancy, France.

2023 *Bias effect of response preference*, CLS 59, Chicago University (poster presentation).

2023 *mage: a Bias Sensitive Discourse Particle*, NACIL 3, University of California, Los Angeles.

2023 *Which Stress is on Response Particles? An empirical study*, LSA Conference, Denver, Colorado.

2022 *Which stress is on PRPs?* SemDial 26, Technological University of Dublin, Ireland (poster presentation).

2022 *A unified account*of polar particles in Farsi, LSA Conference, Washington DC.

2020 *Believe is strong but subjective: Experimental evidence from hedging*, SuB 25 (with Koev and Bill).

2018 *A Contrastive Analysis of Speech Act Conditionals as Indirect Answers in English and Farsi*, CoCoLaC conference, Helsinki University, Finland.

2018 *From learning user types to generating biscuit conditionals*, ComPrag Workshop, Bochum University.

2018 *Communicating an understanding of intention: Speech act conditionals and modified numerals in a Q/A system*, SemDial 22, Aix-en-Provence, France (with Judith Fischer).

2018 *Communicating an understanding of intention: Speech act conditionals and modified numerals in a Q/A system*, DGfS Conference, Stuttgart University, Germany.

Teaching

Bielefeld Uni. 2027	Summer Semester; Co-teaching with Arndt Riester › Commitment Models of Assertion
Bielefeld Uni. 2026	Winter Semester › Grundkurs Linguistik: Übung
Bielefeld Uni.	Summer Semester › Informationsstrukturierung 2
DGfS	Summer School › Semantics-Pragmatics of Polar Questions
ESSLLI Prague Uni.	Co-teaching with Hendrik Buschmeier › From Speech Act Theory to Dialogue Act Modeling
Bielefeld Uni. 2025	Summer Semester › Syntax of Farsi
	Winter Semester; co-teaching with Arndt Riester › Semantics of Polar Questions and Responses
Bielefeld Uni. 2024	Co-teaching with Hendrik Buschmeier › From Speech Act Theory to Dialogue Act Modeling
	Workshop › How to Prepare Consent Forms for Experimental Studies? › Introduction to GitLab as a Project Management Framework
Konstanz Uni 2020–2021	Tutor › Core Components of Language (B): Syntax, Semantics, and Pragmatics › Pragmatics I › Core Components of Language (B): Syntax, Semantics, and Pragmatics

Professional Experience

UMass (Amherst) 2023	Visiting Scholar › Visiting the University of Massachusetts (Amherst) during the fall semester.
Ruhr University 2017-2019	Research assistant › Running a python application to generate indirect answers with speech act (/biscuit) conditionals. › Designing a decision-making model, using Bayesian probability. › Running a series of experiments in Amazon Mechanical Turk to find out English speakers' attitude towards the structure. › Data analysis with R. › Presenting the result in different conferences and workshops.
Chargoon Co. 2015-2017	Software developer › Developing a web-based software in HR system. › Team work for designing new features based on customers' requirements
Part time jobs 2010-2017	Programmer and Teacher › During my student years, I engaged in programming for various software companies. › I served as an English language teacher in several language institutes.

Other Certificates

2025 — **ISAO: Interdisciplinary School on Applied Ontology**
- Modules: Foundational Ontologies, Conceptual Modeling, Knowledge Graphs and their Interfaces to Applied Ontology

2024 — **DGfS Göttingen Summer School**
- Modules: Binding, Features in Grammar, Distributed Morphology, The Semantics of Emojis, Formal Pragmatics.

2021 — **ESSLLI Summer School**
- Modules: Commitment-based pragmatics, Dynamic inquisitive semantics, Intensionalism and Propositionalism in Linguistic Semantics

2020 — **Project Management Workshop**
- Modules: Classic and Agile project planning, Team works, Self-management, Software Trello.

2019 — **DGfS Berlin Summer School**
- Modules: Questions, Speech Acts, Statistics with R, Alternative Sets, Viewing Experimental Pragmatics from a Cognitive Science perspective.

Further Activities

Reviewer	NACIL, ConSOLE, SuB, Bialogue, SALA, Language Science Press, LuffDial, EASST
Organizer	CRC Colloquium at Bielefeld University, SemDial 2025
Administration	Postdoc representative in the CRC Management Committee
Organizer	Information Structure under the Microscope: Zooming in on Cross-linguistic Data, Workshop DGfS 2027, Jena University

Skills

R&D	I like to work on new topics and develop them with experimental studies. I conducted several experiments in different frameworks e.g. Amazon MTurk, Testable, SurveyMonkey, IBEX farm.
Data analysis	I have experience in different statistical data analysis (e.g. lmer, GAMMs).
Programming	R, Protege, GraphDB, Praat, LaTeX, Python, C#, ASP.NET, Delphi, HTML, CSS, SQL

Languages

- Farsi: Native
- English: Fluent
- German: B2
